

Early Childhood Books

Created by Nancy Appletoft, M.A. CCC-SLP

These books are designed to teach young children vocabulary words while matching picture to picture.

To make:

Print the book onto cardstock. Laminate and cut the pages in half. Bind on the left side or the top.

Cut out the individual pictures (those without words above them). Attach soft (loop) Velcro to the pictures in the book. Attach rough (hook) Velcro to the back of the individual pictures.
