

CHICKS AND SNAKES GAME

1. Print off one sheet of chicks and one sheet of snakes
2. Fill plastic eggs with the cards (one per egg)
3. Use an open ended game for students-- Once they say their articulation word, or answer a question, or etc. they get to select an egg out of the basket. If the card selected has a chick inside they keep it, and if it has a snake inside the snake eats one of their eggs. The student with the most birds at the end of the game WINS!

The kids really enjoyed it—have fun!
