

Hide the Picture: Directions

Print the Hide the Picture and Hide the Picture sentence strips on card stock. Laminate for durability. Cut out all pictures and sentence strips. The eight holiday pictures are placed face up on the table. The therapist hides one of the pictures from the sentence strip page under one of the holiday pictures. Ex. Use the "fireplace" and "I found the _____." if working on (f) or (l) blends, "Santa" and "I see the _____." if working on (s), "lights" and "Look for the _____." if working on (l) etc. The student(s) take turns trying to find the picture. The sentence strips can be used to guide the students as they take their turns and will give them extra practice with target sounds. The student(s) can then hide the picture for the therapist to find. Stickers can also be used to hide under the holiday pictures or any appropriate small picture.
