

# "I Want This" Game

This game can be played anytime, but is especially fun for the students just prior to the holidays when their thoughts are on holiday gifts. For small groups (2-4 players).

## **Goals:**

To increase practice with "want/don't want"

To increase practice with voiced "th"

To practice expressing opinions

## **Materials and Preparation:**

Print one copy of I WANT THIS1 and I WANT THIS2 for each player.

Laminate for durability.

Print one copy of I WANT THIS3 and I WANT THIS4 on card stock. Cut the cards apart and laminate.

**To play:** Each student will have one sheet headed "I want this" and one sheet headed "I don't want that." Cards are placed in a small box or basket.

Students take turns picking a card and saying whether they want that item or not, placing it on the corresponding sheet in front of them.

## **Extend the activity:**

Have students state why they do or don't want the item, discuss the features or style of the particular item they want, or who might want the item if they don't want it.
