

Picnic

Object: Fill your picnic basket with as many foods as possible.

How to play: Each player picks a basket. Place all food, ant, and bear cards face down in a pile. Take turns picking a card. If it is a food item place it in your basket. If an ant is picked up, take one piece of food out of your basket. If a bear is picked up, you lose all the items in your basket.

Making the baskets: Paste/tape the baskets onto a piece of construction paper that is the same size as the square around the basket. Only put glue/tape on the bottom and side edges.
