

Edible SpongeBobs

Recipe book by Pat Mervine

Ingredients:

- small rectangular pound cake, sliced
- white or lemon frosting, tinted bright yellow with gel food coloring
- white chocolate disks (used for candy-making -- available in craft stores) for eyes
- blue m & m candies for eyes (put on top of the white disks --a spot of white icing will hold them in place)
- black gel icing for mouth
- Cheese-curl for nose

Print the recipe book pages on card stock. Cut around the black borders and put the pages in order (as they were printed out). SpongeBob Recipe7 is the front and back cover. Bind at the top.

These are really fun treats to make and eat!
