

Story Comprehension Visual Support Mat

Use this visual support mat while reading a leveled book or other story with or to your students. As the story is read, students who are able to, can use a dry erase marker to quickly jot down notes onto the laminated mat beside the proper WH question. Students can write the names of characters on the WHO line, the name of the setting on the WHERE line, etc, Once the story is finished, the teacher can either ask the WH questions and have the students answer, or have the students use the mat as a guide when retelling the story. Target population: Ages 5-9.
