

May 2010

Dear Parents:

I have enclosed a calendar of daily language activities that you can complete with your child each day over the summer. It is important that you continue to talk, read, and expose your child to correct language models over the summer break so he/she will keep developing good communication skills.

To use this calendar, simply complete the activity each day. No activity will take longer than 20 minutes; most range in time from 2 minutes to 5 minutes. Many activities can be used in conjunction with activities you probably do at home anyway, such as washing dishes, taking a bath, doing laundry, or going on a walk.

Enjoy your summer break and I look forward to seeing all of my speech/language students again in the fall.

Thank you so much for all your efforts and support.
